PREFACE

The present supplement is the 16th within 30 years since Vol. III was published in 1981 and since 2010 we give these supplements sequential numbers for a better overview – the present one is with number 5.

With end of 2012 a registered stock of 1.169 horses is in the possession of 273 members. Since 1993 every horse's parentage is verified by bloodtyping and with the beginning of 2003 by DNA. Mares and stallions are identified by Microchip and since 2008 also foals. In 1997 the Austrian Arab Horse Society VVOe was EU-accepted. The UELN-number of our Society is 04001500000
